PEERLESS' NEW LINE OF DESKTOP MOUNTS MAXIMIZES WORK AREA WHILE DELIVERING AN ERGONOMIC DESIGN AND VIRTUALLY LIMITLESS VIEWING POSSIBILITIES

- Five New Desktop Mount Options Optimize User Comfort and Maximize Overall Performance –

CHICAGO, IL – April 16, 2009 – Peerless Industries, Inc., the leader in professional-grade audio/visual mounting solutions, announced today the launch of five Monitor Desktop Mounting Solutions. The new line of single desktop monitor mounts features smooth motion, spring-loaded architecture for the easiest monitor height, depth and tilt adjustment. The ergonomic design of the new desktop mount models assist with reduced eye and neck strain while maximizing desktop work area for users in any environment.

“This is an exciting line of desktop arms that focus on ease-of-use, productivity/performance enhancement, user comfort and great aesthetics while delivering perfect screen placement,” notes Justin Sabetti, product manager, Peerless Industries, Inc. “We are providing a monitor mounting solution that enhances the work environment, increases employee productivity and maximizes work space,” continued Sabetti.

Perfect Monitor Positioning

Peerless' new line of Monitor Desktop Mounting Solutions are ergonomically designed to deliver perfect screen positioning quickly and easily, assisting in the creation of an ergonomically sound work area. Achieving the perfect monitor positioning to accommodate single or multiple users is simple -- mount the monitor on one of the five single monitor desktop models and center it in front of the person at an arm's length away – done! “The mounts enable ideal positioning of the monitor to avoid neck and shoulder strain by placing the screen so that it is viewable without having to turn or tilt the head, reducing physical stress on the neck and shoulders.” adds Sabetti.

Maximum Work Area for Any Desktop

Free up the work area and create more desk surface space with Peerless' Monitor Desktop Mounting Solutions. The new additions to Peerless' portfolio position the monitor off the desk and allows the

user to move the monitor up or down, in and out, and side-to-side, providing the perfect viewing angle. The new solutions are compatible with any type of desktop surface, including glass. They come in two styles-- clamp style (C) that is compatible with any desktop surface, and bolt hole style (H) that is installed directly through the desktop surface for a clean look.

Portfolio of Choice and Style

The five single monitor mount models offer unique screen positioning with various combinations of height, depth and tilt adjustment. All five models provide the smoothest motion available with a spring-loaded motion mechanism. Each model has an eye-friendly design with clean lines, adding a warm, aesthetically pleasing feeling to any environment.

Pricing and Availability

Peerless' new pivot and articulating line of Universal Monitor Desktop Mounting Solutions for single screens are available now. Pricing on the five models ranges from \$179 to \$299 MSRP. With the wide selection of five desktop mount models, even the toughest work area will have a comfortably positioned monitor. Visit <http://www.peerlessinfo.com/desktop> to learn more.
