**PEERLESS INDUSTRIES CORNERS THE MARKET WITH THE FIRST EVER
DIRECT CORNER FLAT PANEL MOUNTING SYSTEM**

CHICAGO, IL – September 2, 2008 --- Have a flat panel screen need and the only space available is a corner. Peerless Industries, a world leader in innovative professional-grade mounting solutions has introduced the first-of-its-kind true direct corner mounting solutions. The line includes three innovative solutions engineered to utilize corner space while providing secure support for flat panel screens from 32 to 60 inches. These corner-mounting solutions are easily installed and work in unison with accessories for A/V component and speaker mount placement.

“There’s simply isn’t anything else like this on the market so this introduction is really exciting,” said Lisa Clark, product manager, Peerless Industries, Inc. “Peerless’ corner mounting solutions offers a new world of possibility for areas that have typically been underutilized in places like waiting rooms, classrooms and malls. From now on ‘getting cornered’ will have a whole new meaning.”

The Corner Mounting System Line

The line includes three models that accommodate a wide range of screen sizes. Two of the models, the CM50 (-S) and CM60 (-S), are compatible with a selection of Peerless flat/tilt wall mounts enabling the desired functionality for 32-inch to 60-inch flat panel installations. The third mount, the CM850 (-S), is a complete, universal corner mounting solution with pull-out swivel functionality allowing screen size upgrades without removing the mount from the wall.

Corner Mount Accessories

The line includes an accessory shelf that provides discreet storage for a variety of A/V components. The shelving is easily attached to the inside and/or the top of the mount or one of each, creating a number of storage options for A/V accessories. In addition, speakers can be attached directly onto the mount (depending on screen size) thus creating an organized, all-inclusive A/V system. All of the mounts are available in black or silver to coordinate with most flat panel screens.

Price Specifics

Peerless direct-corner mounting systems are currently available nationwide at the following prices:

- CM50 (-S) for 32-inch to 50-inch flat panel screens - \$265
- CM60 (-S) for 40-inch to 60-inch flat panel screens - \$315
- CM850 (-S) with pull-out swivel capabilities for 32-inch to 58-inch flat panel screens - \$658
- ACC324 accessory shelf - \$99

Models CM50 (-S) and CM60 (-S) require a compatible Peerless flat or tilt wall mount (purchased separately).

About Peerless Industries, Inc.

Peerless has designed and manufactured the most comprehensive line of audio/visual mounting solutions for more than 40 years. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including LCD and plasma flat panel displays, projectors, CRT televisions and other electronic equipment used in the commercial and consumer markets. Built on decades of experience and proven expertise, Peerless Industries is ISO 9001 certified and is an approved Underwriters Laboratories testing site.
