FIRST-OF-A-KIND FLAT PANEL STAND DEVELOPED BY PEERLESS FOR LARGE TO XL FLAT PANEL SCREENS

- FPZ-670 Flat Panel Stand Accommodates Screens Up To 71 Inches-

CHICAGO, IL – June 10, 2008 – Peerless Industries, Inc., the industry leader in professional-grade audio/visual mounting solutions has announced the launch of its new Flat Panel Stand (FPZ-670) that is the only stand designed to hold up to two screens from 50 to 71 inches single sided or back-to-back in either portrait or landscape orientation.

Sharpest Looking And Fully Functional Flat Panel Stand for Screens up to 71 Inches

Peerless' FPZ-670 is the only flat panel stand for 50 to 71-inch screens that delivers functionality, ease of use and a sharp look to any application. Large to extra large screens can be mounted single sided or back-to-back and be positioned in portrait or landscape orientation using the FPZ-670 without needing additional accessories. This versatile stand offers vertical adjustment of the screen(s) along its six-foot poles, ensuring that the best viewing height for the flat panel application is achieved.

Integrated Cable Management Provides A Sleek Finished Appearance

Peerless' FPZ-670 stand compliments any environment with its sleek lines, integrated storage and cable management features. The base of the stand provides an enclosed storage area that delivers ample space to accommodate content drivers and surge protectors, effectively concealing them from view to prevent tampering. Its integrated cable management feature ensures cables and cords are out-of-sight. Simply route the cables and cords from the storage area at the base up through the poles and plug them directly into the flat panel screen for a clean, clutter-free appearance.

“Our new FPZ-670 flat panel stand offers a comprehensive solution for large to extra-large displays in public areas,” said Derrik Lam, director, mounting solutions, Peerless Industries, Inc. “It is the only stand that supports 50 to 71-inch screens with options that include landscape and portrait orientation and back-to-back screen placement. It also features concealed space for content drivers within its base and a cable management system to hide cables and cords.”

Availability and Pricing

The FPZ-670 stand is now available in black for list price of \$1,499. For more information, please visit Peerless' website at www.peerlessmounts.com.

About Peerless Industries, Inc.

Peerless has designed and manufactured the most comprehensive line of audio/visual mounting solutions for over 40 years.
