**PEERLESS DELIVERS THE INDUSTRY'S FIRST CRT TO FLAT PANEL
CONVERSION KITS**

-- Quickly, Easily and Cost-Efficiently Convert Existing CRT Installations to Flat Panel --

CHICAGO, IL – March 27, 2007– Peerless Industries, Inc., the industry leader in professional-grade audio/visual mounting solutions, today introduced the industry's first Flat Panel Conversion Kits (PLCK-UNL, PLCK-1) that enable installers to use existing CRT wall and ceiling hardware to mount a flat panel in the same location and with the same viewing angle as the CRT TV. The Flat Panel Conversion Kit is the ideal retrofit solution that reduces installation time, renovation costs and is easy to order and specify for any restaurant, bar, health club, classroom or stadium application.

“In order to keep up with technology trends many people are faced with renovation costs involved in upgrading from CRT TVs to flat panels,” said Justin Sabetti, product manager for Peerless Industries. “We developed the industry's first mounting solution which enables installers to use existing CRT mount components and convert them for use with flat panels, saving much of the time required for a regular install.”

The Flat Panel Conversion Kit is a one-box solution for Peerless' single arm, double arm, ceiling or multi-display Jumbo™ mount configurations to fit virtually any flat panel screen up to 50 inches. Both the PLCK-UNL and PLCK-1 kits enable up to 20 degrees tilt adjustment and 360 degrees of swivel to achieve the perfect viewing angle. In addition, an extension column connector is supplied to ensure compatibility with any 1-1/2 NPT pipe for ceiling applications. PLCK-UNL includes a universal adapter plate for 32-inch to 50-inch TVs, providing a one-box retrofit solution. PLCK-1 offers the option for either portrait or landscape orientation with screen-specific adapter plates (sold separately).

Availability and Pricing

Peerless' PLCK-UNL and PLCK-1 Flat Panel Conversion Kits are now available at list prices of \$339 (PLCK-UNL) and \$224 (PLCK-1). Screen-specific adapter plates start from \$28 to \$115. For more information about Peerless' full line of professional-grade mounting solutions visit www.peerlessmounts.com or call (800) 865-2112.

About Peerless Industries, Inc.

Peerless has designed and manufactured the most comprehensive line of audio/visual mounting solutions for over 40 years. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including LCD and plasma flat panel displays, projectors, CRT televisions and other electronic equipment used in the commercial and consumer markets. Built on decades of experience and proven expertise, Peerless Industries is ISO 9001 certified and is an approved Underwriters Laboratories testing site.
