**PEERLESS INDUSTRIES' NEW HG SERIES OF MOUNTS DELIVERS A UNIFIED LOOK
FOR FLAT PANEL SCREENS**

--HG Series Mounting Solutions Complement the Latest Flat Panel Screen Finishes --

CHICAGO, IL –December 12, 2006 – Peerless Industries, Inc., the industry leader in professional-grade audio/visual mounting solutions, today introduced the new HG Series Universal Flat Panel Wall Mounts, developed to extend the stylish appearance of the flat panel all the way to the wall, providing a clean, elegant look to any installation.

The new HG Series includes pivoting and articulating plasma and LCD wall mounts to complement the look of the latest flat panel screen finishes – high gloss piano black or high gloss silver – adding to the upscale appearance of the installation. The new mount series accommodates screens from 26 inches to 60 inches.

“Our new HG Series carries through the sophisticated look of the flat panel to the mount,” said Justin Sabetti, product specialist. “The series perfectly matches the latest screen finishes to blend the mount with the television so it can appear as an extension of the TV rather than a separate accessory. It’s almost like the mount was custom made especially for the TV.”

Availability and Pricing

The new HG Series of Universal Flat Panel Wall Mounts are available now. Pricing for the pivoting and articulating high gloss piano black or high gloss silver models ranges from \$449 for to \$749. The series includes the following models:
