**PEERLESS INDUSTRIES MAKES IN-HOME PROJECTION
EASY AND STYLISH WITH IMPROVED RETAIL PROJECTOR MOUNTS**

CHICAGO, IL – (Special to 2006 International CES) January 5, 2006– Peerless Industries, Inc. (South Hall 1 Booth #21544), the industry leader in audio/visual mounting solutions, today announced significant improvements to its already popular **Universal Projector Ceiling Mounts (RTPJ-UN and RTR-UN)**. Peerless’ Universal Projector Ceiling Mounts feature a redesigned adapter plate that comes completely pre-assembled making installation easy and intuitive.

“With these new improvements, consumers can mount virtually any projector for their home or office and feel confident that it will be simple to install and look good in the room,” explained Justin Sabetti, associate product manager for Peerless Industries. “For the retailer, this means one comprehensive mounting solution in a single SKU to stock and manage.”

With the redesigned adapter plate, these mounts are ready to be attached to a projector right out of the box, which makes them ideal for the “do-it-yourself” home entertainment enthusiast. The plate’s four adjustable legs quickly and easily align to a projector’s mounting holes. Consumers simply hold the universal plate up to the projector, adjust the settings on the legs and attach it to the projector mount. The redesigned adapter plate includes all hardware options necessary to attach virtually every projector on the market.

Available in black, silver or white (RTR-UN only) finishes, the new universal projector mounts work well in a variety of residential environments, making them perfect for home theaters, home offices and more. The RTR-UN offers the most discreet, low-profile projector mount design available today and features three points of adjustment for precise image alignment. The RTPJ-UN is the quickest to install with its single point of adjustment, simplifying projector placement. It can be mounted directly to the ceiling or

-more-

attached to an extension column to accommodate a variety of applications. Both mounts feature internal cord management paths to keep unsightly cords and cables concealed from view, as well as quick-release for easy projector removal and maintenance.

Pricing and Availability

The Universal Projector Ceiling Mounts (RTPJ-UN and RTR-UN) with the redesigned adapter plate will be available in March 2006 at suggested retail prices of \$169 and \$240, respectively. For more information about Peerless Industries' wide range of mounting solutions, please call 1-800-865-2112 or go to www.peerlessmounts.com

About Peerless Industries, Inc.

For more than 40 years, Peerless has designed and manufactured the world's most comprehensive line of high performance audio/visual mounting solutions. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including LCD and Plasma flat panel displays, projectors, CRT televisions and for other electronic equipment used in both the commercial and consumer markets. Built on decades of experience and proven expertise, Peerless offers its customers the best overall value by providing the right combination of high performance mounting solutions, affordable pricing and complete services and support. Peerless Industries is ISO 9001 certified and is an approved Underwriters Laboratories testing site.
