PRESS KIT OVERVIEW

With more than 40 years experience in mount manufacturing for the audiovisual industry, Peerless Industries, Inc. is the market leader for flat panel, projector and CRT mounts, as well as other technology products for the commercial market.

Peerless mounts enable **PRO AV INSTALLERS** to keep the most efficient selection of mounts in inventory, use mounts that support, protect and optimize every display and keep client applications on time and on budget.

They offer **END USERS** the ability to maximize their flat panel investment with products that provide safety from damage, security to deter theft, functionality for space-savings and optimal viewing and aesthetics to complement the display and the environment.

Information about the following news can be found in this press kit. Visit Peerless at booth #2519 during InfoComm to learn more!

- **NEW Aluminum SmartMount™ Flat Panel Mounts!** *FIVE* brand new aluminum **pivot** and **articulating** mounts for 13"-37" screens round out the popular SmartMount flat panel line with an attractive, image-enhancing look and extreme flat panel functionality.
- **Newly Designed SmartMount Flat Panel Mounts!** Four completely *new flat* and **tilting** mounts for 10"-42" screens provide a multitude of fresh mounting options for displays that require an ultra-slim, space-saving appearance.
- **Peerless' Enhanced Website!** Introducing a new public website with the MOUNT FINDER™, the most comprehensive search engine tool available for mounting products. The new site enables Peerless customers, specifiers and influencers to quickly and easily locate the ideal mounting solution for their specific application. Live demonstrations of the new website will take place in the Peerless booth throughout the show.

For more information about Peerless mounting solutions, go to www.peerlessmounts.com or call 1-800-865-2112.

Have a great InfoComm show!!
