**PEERLESS INDUSTRIES IMPROVES WORKPLACE PRODUCTIVITY
WITH NEW MULTI-SCREEN LCD DESKTOP MOUNT**

CHICAGO, IL – November 1, 2005 – Multi-tasking is now a snap, thanks to the introduction of the newest multi-screen LCD desktop mount from Peerless Industries, Inc., the industry leader in audiovisual mounting solutions. The **LCT-103 Desktop Mount** allows for the arrangement of three 10-22” LCD flat panel screens in parabolic placement for simultaneous viewing. The new mount joins the company’s complete line of desktop mounts for single through four-screen displays.

According to Michael Jasinski, associate product manager for Peerless Industries, “There is so much pressure in today’s workplace to be productive. Many professionals use more than one screen to multitask – for example, one for email, one for web searches and one to actively work on a project.” He continues, “The LCT-103 is for commercial applications that require the use of multiple displays at the same time. It’s ideal for desktops in offices, financial institutions, editing rooms in broadcast studios and much more.”

The LCT-103’s adjustable cross arms and pivot features facilitate the placement of different screen sizes (up to 25 pounds each) in various configurations with a single mounting pole. Its ball-joint system allows for adjustments to each LCD screen in tilt, swivel and swing motions for maximum viewing capabilities. The new LCT-103 also offers a variety of mounting options, such as a clamp, bolt or freestanding base, for virtually any desktop surface.

Because more screens can also mean more wires, the new LCT-103 mount incorporates advanced cable management to seamlessly hide the wires and cables from all three displays. Its die-cast aluminum alloy body provides superior strength and durability so users can safely configure the monitors for maximum

-more-

multi-tasking. Plus, the LCT-103's attractive design complements the flat panels and provides an image-enhancing look that is perfect for executive offices, hotel lobbies and other high profile areas.

The LCT-103 mount is compatible with VESA® 75 and 100 mounting hole patterns and requires an accessory base option.

Availability

The LCT-103 Desktop Mount is currently available in black at a list price of \$265.00. For more information about Peerless' wide assortment of mounting solutions, please call (800) 865-2112 or go to www.peerlessmounts.com.

About Peerless Industries, Inc.

For more than 40 years, Peerless has designed and manufactured the world's most comprehensive line of high performance audiovisual mounting solutions. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including LCD and Plasma flat panel screens, projectors, CRT televisions, and for other electronic equipment used in both the commercial and consumer markets. Built on decades of experience and proven expertise, Peerless offers its customers the best overall value by providing the right combination of high performance mounting solutions, affordable pricing and complete services and support. Peerless Industries is ISO 9001 certified and is an approved Underwriters Laboratories testing site.
