**World's Flattest Mounts Get Flatter, Line Gets Deeper**

*-- Peerless' Slimline<sup>®</sup> Ultra-Thin Flat, Tilt and Articulating Arms Provide World's Slimmest Mounts for Ultra-Thin Flat Panel Screens at Booth Number 21740 --*

**CHICAGO, IL – CES 2009** – Peerless Industries, Inc., manufacturer of the world's thinnest mounting solutions today announced the first showing of its enhanced and expanded Slimline<sup>®</sup> Ultra-Thin Universal Mounting Solutions. The line boasts ultra-thin flat mounts that are less than .39 inches from the wall, tilt mounts under .75-inch, and articulating arm wall mounts under 1-inch thin. Visit booth #21740 at CES 2009, Las Vegas, NV to experience the world's thinnest full-line universal mount offering.

“We introduced the first ultra-thin universal flat wall mounts in 2008, and now we made them even thinner,” said Adam Molberger, product manager, Peerless Industries, Inc. “Plus, we’ve expanded the line to include the world’s thinnest tilting wall mounts, and a fully articulating arms that measures less than an inch deep in the retracted position.”

**Setting the Standard for Style and Function**

Slimline<sup>®</sup> Ultra-Thin Universal Mounting Solutions set the standard for elegance, simplicity and functionality for mounted ultra-thin flat panel TVs. To take full advantage of the slimness of ultra-thin screens, Peerless further reduced its universal ultra-thin flat wall mounts to less than .39 inch from the wall, practically placing the screen directly on the wall surface. For the perfect viewing angle, Peerless' new tilt wall mount provides up to 15-

degrees of tilt, while keeping the screen under .75 inches from the wall in the upright position. And for the ultimate expression in elegance, weightlessness, and flexible viewing, Peerless introduced a pioneer into the ultra-thin mount category with its ultra-thin articulating arms that hugs the screen less than 1-inch from the wall in the retracted position, while offering full extension, pivot and tilt functionality. These breakthrough designs transform the latest ultra-thin flat panels into astounding, admirable works of art.

**Must See at CES 2009**

Visit Peerless at CES 2009 to experience breakthrough innovations in the ultra-thin flat panel TV mounting category and other creative mounting solutions in Peerless' booth number 21740 at CES, Las Vegas, NV, January 8-11, 2009.

**About Peerless Industries, Inc.**

Peerless has designed and manufactured the most comprehensive line of audio/visual mounting solutions for over 40 years. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including LCD and plasma flat panel displays, projectors, CRT televisions and other electronic equipment used in the commercial and consumer markets. Built on decades of experience and proven expertise, Peerless Industries is ISO 9001 certified and is an approved Underwriters Laboratories testing site.
