**Peerless to Show New One Mount™ Flat Panel Modular Mount and Other Innovative Products at CEDIA 2006**

*--New Flat Panel Wall Mounts, TV Stands and Environmental Enclosures for Applications Inside and Outside the Home--*

**CHICAGO, IL** – Peerless Industries, Inc., the industry leader in professional-grade audio/visual mounting solutions, will unveil its new One Mount™ Flat Panel Modular Mount for LCD and plasma screens from 23 inches to 84 inches at the annual CEDIA Expo 2006, booth number 623, September 14-17 in Denver. Peerless also will demonstrate its newest flat panel TV stands and other mounting solutions for indoor and outdoor applications.

**Flexible, Versatile, Modular**

Peerless' new One Mount Flat Panel Modular Mount is a single mount that can accommodate screens from 23 inches to 84 inches weighing up to 250 pounds and has been UL®-tested. It is comprised of three interlocking wall plates that can be used together or separately, depending on screen size. These plates fit easily into position and can be held together using a minimum of two screws in a two-plate configuration or a maximum of only four screws in a three-plate configuration. Designed to enable quick and easy installation in residential or commercial applications, it comes in a compact package that reduces shelf and storage space for professional installers and retailers.

### **Flat Panel TV Stand (FST550)**

Peerless' new Flat Panel TV Stand accommodates 32-inch to 50-inch screens and has built-in tilt and vertical adjustment features to achieve the ideal viewing angle. The stand's clean, clutter-free appearance is maximized by two adjustable glass shelves, which hold up to 50 pounds each, to centralize A/V components and its internal cord management system that hides cords and cables from view.

### **Outdoor Flat Panel Environmental Enclosure (EEO)**

Peerless' new Outdoor Flat Panel Environmental Enclosure keeps LCD or plasma screens 32 inches, 40/42 inches and 50 inches in proper working condition when exposed to various weather elements. The screen is fully-protected within the enclosure to deter theft, accidental damage or vandalism and eliminates the need for seasonal screen removal, storage space and possible screen damage during the removal process. It is available with mounting options for ceiling, wall or pedestal-set to meet any installation needs.

### **Aesthetics, Easy Installation**

Peerless mounts incorporate a stylish look and smooth curves while offering the functionality that today's homeowners are asking for—sleek finishes, compact design and cord management features. Virtually all Peerless mounts come pre-assembled out of the box. Peerless' universal mounts include the exclusive Sorted-For-You™ fastener set with all necessary mounting hardware. For more information come to the Peerless booth number 623 at CEDIA Expo 2006, visit [www.peerlessmounts.com](http://www.peerlessmounts.com), or call (800) 865-2112.

### **About Peerless Industries, Inc.**

Peerless has designed and manufactured the most comprehensive line of audio/visual mounting solutions for over 40 years. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including LCD and plasma flat panel displays, projectors, CRT televisions and other electronic equipment used in the commercial and consumer markets.
