**PEERLESS TO SHOW NEW ONEMOUNT™ FLAT PANEL MODULAR MOUNT AND OTHER
INNOVATIVE PRODUCTS AT NSCA 2007**

*--New Flat Panel Wall Mounts, Versatile Flat Panel TV Carts and a Universal Projector Enclosure for
Commercial, Education, Healthcare and Entertainment Applications --*

CHICAGO, IL – NSCA 2007 -- Peerless Industries, Inc., the industry leader in professional-grade audio/visual mounting solutions, will show its new OneMount™ Flat Panel Modular Wall Mount for LCD and plasma screens from 23 inches to 84 inches at NSCA 2007, booth #1353, Orlando, FL. Peerless will also exhibit its newest flat panel TV carts and other mounting solutions for commercial, education, healthcare and entertainment applications.

Flexible, Versatile, Modular Wall Mount

Peerless' new OneMount™ Flat Panel Modular Wall Mount is a single mount that accommodates screens from 23 inches to 84 inches, and is UL® listed up to 250 pounds. It is comprised of adjustable adapter brackets and three interlocking wall plates that can be used in one-, two-, or three-plate configurations. Designed to enable quick and easy installation in any application, it comes in a compact package that reduces shelf and storage space.

Versatile Flat Panel Carts

Peerless' SmartMount™ SR Line of Flat Panel TV Carts for 32 inch to 60 inch flat panel screens weighing up to a UL-listed 150 pounds. The carts combine safety and functionality to deliver optimal flat panel screen mobility and versatility in any application. These carts feature adjustable metal or tinted glass shelves, universal or screen-specific adapter plate, as well as height and tilt screen adjustability. A full line of accessories enables each cart to be tailored to allow video conferencing in a board room or classroom, presentations at a trade show, or digital signage in a hotel lobby.

Projector Enclosure Delivers Security and Safety

The new PE1120 projector enclosure delivers theft deterrence and projector safety with its all-steel design. This projector enclosure features adjustable steel bars to accommodate proper projector lens placement. Its wrap-around design and 'Hook-n-Hang' frame easily allow for a one-person installation or for easy projector maintenance. The enclosure prevents damage to the projector that may be caused by accidental bumping or by flying objects, such as basketballs in a gym.

HG Series Extends Style

The new HG Series includes pivoting and articulating flat panel wall mounts designed to complement the look of the latest flat panel screen finishes – high gloss piano black or high gloss silver – adding to the upscale appearance of the installation. The new mount series accommodates screens from 26 inches to 60 inches weighing up to 200 pounds. The HG Series extends the stylish appearance of the flat panel from the TV to the mount to the wall.

Aesthetics, Easy Installation

Peerless mounts incorporate stylish looks and smooth curves while offering the functionality that today's customers are asking for—sleek finishes, compact designs and cord management features. Virtually all Peerless mounts come pre-assembled to save installation time, and universal models include the exclusive Sorted-For-You™ fastener set with all necessary screen attachment hardware.

For more information about the full line of professional-grade mounting solutions from Peerless, visit booth #1353 at NSCA 2007, www.peerlessmounts.com or call (800) 865-2112.
