

Peerless-AV™ Introduces New Collection of Video Carts and Stands for Retailers, Distributors, Integrators and Installers

Highly Adjustable, Movable Units Accommodate Flat Panel Displays from 32-inches to 108-inches, Support Varying Capacities While Providing Clean, Integrated Design for Variety of Applications

AURORA, IL (June 27, 2011) – Peerless-AV today announced a new line of 13 highly maneuverable audiovisual flat panel carts and stands, each providing secure support and highly adjustable screen positioning angles and heights for use with wide a variety of events and room styles. Available in black, each features both internal cable management for a sleek, clutter-free appearance and metal or glass shelving for AV component and accessory storage.

The carts and stands accommodate flat panel displays from 32-inches up to 108-inches. Their maximum load capacities range from 66 lbs. to 800 lbs. Each high-quality steel unit is competitively priced and features effortless universal vertical height and tilt adaptability.

“Our new collection of steel carts and stands are designed to be uncomplicated and trouble-free, and provide a level of unmatched stability and security in private and public settings,” said Rob Meiner, Peerless-AV product manager. “The new stands come with chrome or painted poles and complement the display’s look in any room or presentation venue.”

Peerless-AV’s new flat panel carts, with steel or tempered glass bases and aluminum extrusion poles, provide continuous vertical adjustment for optimum viewing heights, as well as universal adapter plates for display models with VESA® mounting patterns. They fit almost all models with a mounting pattern within 28.7”W X 17”H. Incremental tilt adjustments range from –5 degrees to +15 degrees for varying viewing angles. They are also available with continuous 11.8-inch vertical adjustment and on 65-inch posts for perfect viewing height.

The company’s new stands support 32-inch to 65-inch flat panel displays and, like some of the carts, feature universal adapter plates with a mounting pattern of 28.7”W X 17”H.

Peerless-AV has also unveiled three combination cart/stands, including the adjustable 76”H SC599/SS599 model, which, in addition to accommodating a 108-inch display, features a leg leveler kit that quickly transitions the unit between its dual uses. Its tubular steel frame supports 600 lbs.

The two other combination units designed for displays of between 32-inches and 60-inches and 60-inches and 85-inches have load capacities of 150 lbs. and 800 lbs., and easily maneuver on 3-inch and 4-inch swivel casters, respectively. The larger unit, the SC585, features feet molded from a hard plastic base with steel casing.

“These ‘smart stands’ allow for easy vertical adjustment and incremental tilt of –2 degrees, 0 degrees, and ±5 degrees for an ideal viewing angle,” Meiner said. “And they can be mounted portrait-style or landscape-style to complement any commercial or home décor. Their adjustable metal and glass shelves can support up to 50 lbs. of AV components and accessories.”

Peerless-AV’s 13 new carts and stands will be rolled out and available beginning in July and August.
