Peerless to Debut over 60 new Mounts, Carts & Stands at InfoComm 2011

*Easy-Install Menu Board, Outdoor & Video Wall Mounting Solutions,
Plus 15 Flat Panel Carts & Stands Including Movable Multi-Display Option Are Among New
Products to be Displayed*

ORLANDO, FL (June 15, 2011) – Peerless Industries today announced a selection of new flat panel mounting solutions for menu board, video wall and outdoor or indoor/outdoor scenarios, including a video wall mounting product that reduces installation time by 60%. The company is also introducing a line of 15 flat panel carts and stands for commercial and professional applications, plus a movable cart that converts into a stand and displays up to four digital screens.

Digital Menu Board Kit

Designed for flexible configuration of menu board displays from 13- to 102-inches, the [Peerless Digital Menu Board Kit](#) enables users to mount multiple displays side-by-side at any desired height and in any configuration using a combination of wall plates and vertical rails. Portrait or landscape installation is a simple three-step process that saves time and eliminates tedious measurements. Horizontal alignment enables menu boards to have a uniform appearance. Options include full flat or tilted viewing to -5, 0, 5, 10, or 15 degrees. Anti-tampering security hardware is included, with an optional cable management accessory.

Two-in-One Movable Display Panel Cart/Stand

The new Peerless DSVWC-560 Two-in-One [Movable Display Panel Cart/Stand](#) holds up to four 40- to 60-inch digital screens for impactful on-the-go presentations. Easily movable by one person even at full capacity, the product is constructed of welded high-quality steel for strength, engineered to avoid tipping, and equipped with industrial swiveled casters for easy maneuverability. A horizontal rail system allows side-by-side displays to be adjusted for a seamless appearance. The cart can be converted to a stand by replacing the wheels with an optional Peerless leg accessory leveler.

Flat Panel Stands & Carts

Peerless' sleek new family of 15 flat panel carts and stands provide a wide range of display choices for conventions, conference rooms, schools, hotels and a variety of other settings. With models designed to fit displays from 37- to 108-inches, all SKUs in the line feature vertical adjustment capabilities for positioning the screen at the required height as well as -5- to 15-degrees of tilt for achieving the optimal viewing angle. Each model is available in either black or chrome and features all-steel construction, aluminum poles, internal cable management, theft-deterrent hardware, and adjustable tempered glass shelves where applicable.

Full-Service Video Wall Mount

The [Peerless DS-VW760 Full-Service Video Wall Mount](#) reduces installation time by 60% with a modular mount system that eliminates guesswork and on-site installation calculations. Permitting unlimited video wall display configurations, the solution features model-specific wall plate spacers that connect between the mounts to ensure perfect spacing alignment between displays. Eight tool-less micro-adjustment points between displays enable seamless alignment. Pull-out and pop-open display component access simplifies servicing.

Outdoor Mounts

For flat panel installation in exposed outdoor environments as well as indoor humid areas, Peerless offers a full line of corrosion-resistant outdoor and indoor/outdoor mounts with models capable of holding 26- to 65-inch flat panels up to 175 pounds. Tilt, articulating, ceiling and floor models can be used in settings including three-season rooms, outdoor patios, gym locker rooms, bathrooms, car washes, indoor pool or water park areas. Also offered are waterproof, climate-controlled indoor/outdoor display enclosures offering protection from outdoor elements and pollution, plus heated or fan-cooled options. All models feature theft-resistant hardware.

All products are UL listed for strength and made in the U.S. They will be on display at Peerless-Booth #4029 at the InfoComm 2011 show opening June 15 in Orlando, FL.

About Peerless-AV

Peerless-AV, a Peerless Industries, Inc. company, is a leading designer, manufacturer and distributor of Made in the USA audio-visual solutions.
