**PEERLESS INDUSTRIES EXPEDITES AVAILABILITY OF PULL-OUT
SWIVEL WALL MOUNT FOR PROFESSIONAL AND RESIDENTIAL APPLICATIONS**

CHICAGO, IL – October 24, 2005 – Peerless Industries, Inc., the industry leader in audiovisual mounting solutions, has expedited the availability of its *SmartMount*™ **SP850 Pull-Out Swivel Wall Mount** for 26”-50” flat panels due to overwhelmingly positive feedback on the prototype during CEDIA EXPO 2005. The SP850 features a sophisticated, functional design that is completely hidden by the flat panel when mounted flush to the wall or in recessed applications, making it ideal for both commercial and residential installations.

“Many of the distributors, integrators and installers who viewed the SP850 prototype during CEDIA and in private showings were thrilled with the mount design simply because it allows the focus to be solely on the screen – not the mount, wires, cables and other accessories used with it,” explained Justin Sabetti, associate product manager for Peerless Industries. “This input clearly indicates an industry need in the professional and residential markets alike, so Peerless has accelerated production of the SP850 by several months.”

The SP850 is the newest addition to Peerless’ popular SmartMount family of universal flat, tilt, articulating and pivot wall mounts for Plasma and LCD flat panel screens. Designed to be ‘the best made mount not to be seen,’ the SP850 accentuates the stylish look of a flat panel without burdening it with bulky, cluttered hardware and cables. When mounted flush against the wall, the SP850 flat panel mount’s ultra-clean 2” profile is fully concealed, while its built-in cable management flawlessly hides all wires and cables. When in use, it smoothly extends up to 10.5” and swivels up to 45 degrees left and right depending on the screen size for functional, flexible viewing.

-more-

The SP850 features a labor saving design, which is quick to setup and easy to install. The new mount comes fully pre-assembled, is compatible with VESA® 100 and 200 mounting hole patterns and supports non-VESA screens with optional adapters for use with essentially any 26"-50" screen.

The SP850 is also available with security screws to deter theft and vandalism, as well as safety lock screws to prevent pull-out ability and unnecessary movement of the screen. Available in black and silver, the SP850 seamlessly integrates into limitless commercial and residential applications.

About SmartMounts

The SmartMount family of flat panel mounts incorporates the widest range of sizes, styles and features for virtually any screen ranging from 10"-63". The SmartMount line is ideal for a long list of professional and residential environments, ranging from conference rooms, hotels and stadiums, to high-end home theaters, master bathrooms and kitchens.

Availability

The SmartMount SP850 is currently available for a list price of \$449. For more information about Peerless' wide assortment of mounting solutions, please call 1-800-865-2112 or go to www.peerlessmounts.com

About Peerless Industries, Inc.

For more than 40 years, Peerless has designed and manufactured the world's most comprehensive line of high performance audiovisual mounting solutions. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including Plasma and LCD flat panel screens, projectors, CRT televisions, and for other electronic equipment used in both the commercial and consumer markets. Built on decades of experience and proven expertise, Peerless offers its customers the best overall value by providing the right combination of high performance mounting solutions, affordable pricing and complete services and support.
