Peerless' Next-Generation SmartMount® 600 Series Now Available

– Innovative Features, Installation Flexibility and a Whole New Style –

CHICAGO, IL – April 8, 2008 – Peerless Industries, Inc., the industry leader in professional-grade audio/visual mounting solutions announced the launch of its next-generation SmartMount® 600 Series of flat and tilt wall mounts for flat panel screens. This new series incorporates a unique set of features that work seamlessly together to make installation faster and easier.

Enhanced Features Deliver Mounting Flexibility

Getting a flat panel screen mounted to the wall has never been easier with the completely redesigned next-generation SmartMount® 600 Series. The open wall plate architecture delivers a spacious six inches of vertical space, and up to 32.62 inches of horizontal space that provides plenty of room for cables, cords and electrical gang boxes to be placed within the plate's perimeter. Boasting an incredible eight inches of horizontal adjustability, the screen can be perfectly positioned to where it needs to be even if the wall studs are not optimally located. The easy-glide ramp ensures the brackets are securely attached to the mount; simply hang the screen on the wall plate and listen for the audible click that indicates the screen is set in place.

This groundbreaking new series combines a unique set of features that work seamlessly together in its flat and tilt wall mounting solutions. The SmartMount® 600 Series flat wall mount models deliver a low-profile design that allows for clearance to run cables and cords behind the screen. Tilt wall mount models come equipped with innovative easy-grip ratcheting levers on both sides of the mount that lock the tilt angle in place. The tilt models also include the IncreLock™ system that offers fixed tilt angles that lock in 5-degree increments, making it easy to set multiple screens at the same angle.

Availability and Pricing

SmartMount® 600 Series products are now available and range in price from \$35 to \$300. For more information about Peerless' professional-grade mounting solutions, visit www.peerlessmounts.com or call (800) 865-8010.
