**PEERLESS ENABLES FAST, PRECISE VIDEO WALL INSTALLATION AND
UNMATCHED AESTHETICS WITH NEW MODULAR WALL MOUNT**

-- VW-4050 Enables Infinite Number of Matrices and Easy Video Wall Expansion --

CHICAGO, IL – DSE 2009 – February 24, 2009 – Peerless Industries, Inc. announced the most innovative video wall mounting solution for digital signage applications. Peerless Modular Wall Mount (VW-4050) provides everything needed for precise positioning of multiple screens in digital signage video wall applications. The Modular Wall Mount (VW-4050) will be demonstrated at the Digital Signage Expo February 24 –26, 2009 at the Las Vegas Convention Center, Booth 1413.

Peerless Delivers High-Impact and Precise Flat Panel Positioning

This Modular Wall Mount (VW-4050) assists in the creation of high-impact digital signage displays by enabling an infinite number of 40-inch and 50-inch flat panel screens to be mounted in precise configuration with minimal measurement. Unprecedented efficiency and precision, flat panel configuration is achieved using dedicated spacers. At the job site, simply install the first mount and position the rest using the provided spacers. The spacers deliver exact mount positioning without the need to measure.

More than Just A Beautiful Video Wall

This Modular Wall Mount (VW-4050) supports the screen 3.5 inches from the wall, providing airflow that helps dissipate heat for screen ventilation. The fixed distance from the wall also enables power and signal cables to be easily run and neatly stowed behind the mounted screen(s). Exact screen placement, easy installation and impeccable cable management make Peerless' new Modular Wall Mount the choice for video wall installations of any size.

Pricing and Availability

The Modular Wall Mount (VW-4050) is available now for \$144.37. Visit Peerless at DSE 2009, Booth 1413 at The Las Vegas Convention Center February 24-26 to experience Modular Wall Mount, and other creative mounting solutions.

About Peerless Industries, Inc.

Peerless has designed and manufactured the most comprehensive line of audio/visual mounting solutions for over 40 years. Today, Peerless designs and manufactures mounts for current and emerging visual display technologies, including LCD and plasma flat panel displays, projectors, CRT televisions and other electronic equipment used in the commercial and consumer markets. Built on decades of experience and proven expertise, Peerless Industries is ISO 9001 certified and is an approved Underwriters Laboratories testing site.
