***PEERLESS INDUSTRIES LAUNCHES NEW PRS SERIES PROJECTOR MOUNT***

**Chicago, Illinois, April 1, 2004** – Peerless Industries, Inc., the industry leader in audiovisual mounting accessories, is pleased to introduce the new PRS Series Projector Mount. The mount is designed to provide the end user a low-profile and versatile solution to complement the projector and the environment.

Projectors remain key devices in the corporate world and continue to gain popularity in school and home-theater applications with the advent of the sub thousand-dollar projector. Peerless designed the PRS Series with end user in mind. Peerless achieved its goals by making the Series Projector Mount aesthetically pleasing, functional and tamper-resistant for educational and other public area uses.

***About the PRS Series Projector Mount***

The PRS Series Projector Mount comes pre-assembled and with the Armor Lock™ security fasteners that provide a peace-of-mind for your investment. The mount itself is small, compact and available in black, white or silver colors to complement the décor or projector color. The mount holds projectors weighing up to 25 lbs., and the patent-pending UL listed design, constructed of aluminum, ensures a stable and safe solution.

-more-

The mount allows precise and independent image adjustment that ensures proper alignment on a screen. It can tilt 15° forward and 5° backward and is able to swivel a full 360° when mounted on an extension column, or 30° when mounted flush to the ceiling. The mount can also roll 10° to the left or right. The PRS Series Projector Mount offers a quick-release feature for hassle-free bulb replacement or access to the filter on the projector. All necessary hardware comes standard for the mounting system.

***About Peerless Industries, Inc.***

Peerless Industries, Inc., founded in 1941, is the leading manufacturer of audiovisual mounting systems, including mounts for televisions, LCD screens, plasma screens, projectors, speakers, security cameras, computers, and more. Peerless Industries is ISO 9001 certified and is a UL-approved testing site. Peerless designs and manufactures mounts and accessories for both the commercial and consumer electronics market places.
