

Flat Panel Conversion Kit

For up to 50" LCD and Plasma Screens

NEW!

Converting from CRT TVs to flat panels? Peerless has made it simple with the industry's first flat panel conversion kit. Our Flat Panel Conversion Kits (PLCK) utilize existing Jumbo™ CRT wall arms and ceiling extension columns from CRT mounts and provide installers with everything needed to attach a flat panel TV. No drilling required, just remove the yoke-style bracket and replace with the conversion kit. PLCK models position the new flat panel screen in the same location and viewing angle as the previous CRT screen to eliminate a new screen layout plan in the facility. The PLCK Flat Panel Conversion Kit can be attached to wall, ceiling and multi-display mounts and are the ideal solution for renovations in restaurants, bars, health clubs, fitness rooms, classrooms and stadiums.

Flat Panel Conversion Kit

For up to 50" LCD and Plasma Screens

Model Numbers

- PLCK-UNL Universal model
- PLCK-1 Unkitted model
(requires screen adapter plate)
